

AIR Compressors:-

6 Lt

24 Lt

50 Lt

- Easy to use.
- Robust design.
- Quiet, Reliable and durable.
- Low speed pump.
- 13 Amp supply – for use anywhere.
- Comprehensive specification.
- Economical and efficient.
- Fitted With Genuine High Quality ABAC Compressor Pump Unit.
- Manufactured in compliance with CE directive.

100 Lt

-Cast iron cylinder providing long life and efficient operation.

-Precision engineered for efficiency and reliability.

-High output .

-High quality electric motor.

-Robust design .

-Quiet, Reliable and durable.

-Low speed pump.

-Superior valve and cylinder head design.

-Comprehensive specification.

-Economical and efficient.

-Fitted With Genuine High Quality ABAC Compressor Pump Unit.

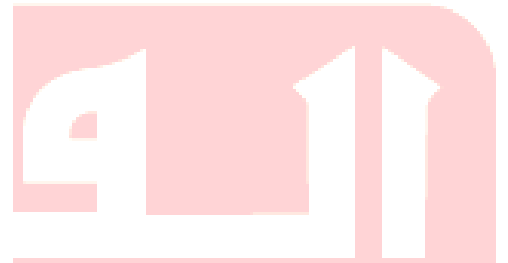

-Manufactured in compliance with CE directive.

150 Lt

- Workshop Compressor .
- Ideal for most applications.
- High Output.
- Superior Valve & Cylinder Head Design.
- Precision Engineered for efficiency and reliability.
- Cast Iron Cylinder providing long life and efficient operation.
- High Quality Electric Motor.
- Stationary, Robust design .
- Easy to use.
- Quiet, Reliable and durable.
- Low speed pump .
- Comprehensive specification.
- Economical and efficient.
- Manufactured in compliance with CE directive.

200 Lt

- Ideal for use on Site.
- Highly Portable and Robust Unit.
- Easy to use.
- Robust design.
- Quiet, Reliable and durable.
- Low speed pump.
- Fitted regulator/filter with two outlet ports.
- Large wheels and full handle for stability and convenience.
- Comprehensive specification.
- Economical and efficient.
- Fitted With Genuine High Quality ABAC Compressor Pump Unit.
- Manufactured in compliance with CE directive.

ALFANOOS

270 Lt

- Workshop Compressor
- Ideal for most applications.
- High output.
- Superior valve and cylinder head design.
- Precision engineered for efficiency and reliability.
- Cast iron cylinder providing long life and efficient operation.
- High quality electric motor.
- Pre-wired direct online starter/pressure switch with overload protection.
- Robust design.
- Low speed pump.
- Reliable and durable.
- Comprehensive specification.
- Economical and efficient.
- Fitted With Genuine High Quality ABAC Compressor Pump Unit.
- Manufactured in compliance with CE directive.

500 Lt

- Three Phase operation.
- Aluminium Heads for efficient cooling with Cast Iron Liners.
- Tandem Unit.
- Fitted With Genuine High Quality ABAC Compressor Pump Unit.
- Slow Running For Long Life And Quieter Operation.
- Superior Cooling For High Efficiency And Improved Output.
- High Quality Heavy Duty Electric Motor.
- Full Overload Protection.
- Fully Automatic Control.
- Quiet, Reliable and durable.
- Comprehensive specification.
- Economical and efficient.

Manufactured in compliance with CE directive.
