

## - Building Motors:-

### **Generic features**

Motor with the best performances to work on cement mixer.  
Insulation class F.

Volt for single phase motor:

- 230/50Hz  $\pm 5\%$  - 220/50Hz  $\pm 5\%$  - 220/60Hz  $\pm 5\%$  - 110/60Hz  $\pm 5\%$  - 100/50Hz  $\pm 5\%$ .

Range for single phase motor:

- 2 Poles frame size 71-80-90 power from 0,75 Kw to 2,2 Kw  
- 4 Poles frame size 71-80-90 power from 0,55 Kw to 1,85 Kw

Volt for three phase motor:

- 230-400/50-60Hz  $\pm 10\%$  - 400-690/50-60Hz  $\pm 10\%$

Range for three phase motor:

- 2 poles frame size 71-80-90-100-112 power from 0,75 Kw to 5,5 Kw.  
- 4 poles frame size 71-80-90-100-112 power from 0,55 Kw to 4 Kw

### **Optional:**

Executions with special voltages, frequencies and duties.

Special shaft and flange.

Separate control panel which includes: switch with minimal voltage coil, emergency push-button, CEE plug.
