

- Bar Cutting Machines

**-RE-BAR CUTTER**

### \* Feature

1. Compact, light weight and easily portable on the field.
2. A fast and powerful cutter heightens the efficiency of work.
3. Suitable for small and middle works.
4. The blades made of special material seldom wear away.  
You can also use 4sides of the blade with 1set.
5. So easily controlled with one-touch system that even a nonprofessional can operate it.
